REMARKS

The forgoing amendments are directed to formalities, in order to move the above-referenced patent application to issue. Entry of this paper is respectfully requested.

Remarks to the Specification

The published application had many spelling errors and most of the amendments have been made to correct them. There are some changes to the original text which are editorial in nature and are meant to correct form and language only. The following changes are noted:

In paragraph [0060], the phrase "Central Station 109" has been changed to -- Central office 109 -- in order to ensure uniformity in the text.

In paragraph [0076], the phrase "interface ports 253A" has been changed to -- interface port 253A -- in order to match the text to the drawings.

It is respectfully asserted that none of the above listed changes add new matter. Approval is requested to the above listed changes.

Should the Examiner have any question or comment as to the form, content or entry of this Amendment, the Examiner is requested to contact the undersigned at the telephone number below. Similarly, if there are any further issues yet to be resolved to advance the prosecution of this application to issue, the Examiner is requested to telephone the undersigned counsel.
